1. Secondary Offering Through Over-Allotment, Etc.

There are cases where the lead manager of the primary offering (SMBC Nikko Securities Inc.) may conduct, separate from the primary offering, a secondary offering (secondary offering through over-allotment) of marimo REIT investment units, which it shall borrow from the designated party in a number not to exceed 1,908 units, upon the primary offering, after taking into account the status of demand and other factors of the primary offering. The number of investment units to be offered in the secondary offering through over-allotment is planned to be 1,908 units. The concerned number of investment units to be offered is the upper limit for the number of investment units to be offered. There are cases where the number may decrease, or the secondary offering through over-allotment itself may not take place at all, depending on the status of demand and other factors.

Furthermore, in connection with the secondary offering through over-allotment, at the meeting of the Board of Directors of marimo REIT held on January 4, 2022 (Tuesday), marimo REIT passed a resolution to conduct the third-party allotment for 1,908 units of marimo REIT investment units in which the allottee is SMBC Nikko Securities Inc. with February 15, 2022 (Tuesday) as the payment due date in order for SMBC Nikko Securities Inc. to acquire the marimo REIT investment units necessary to return the borrowed investment units.

In addition, during the period from the day following the date on which the subscription period of the primary offering and secondary offering through over-allotment ends to February 10, 2022 (Thursday) (the “syndicate covering transaction period”), there are cases where SMBC Nikko Securities Inc. may purchase marimo REIT investment units on Tokyo Stock Exchange, which shall be in a number not to exceed the number of investment units of the secondary offering through over-allotment, for the purpose of returning the borrowed investment units (the “syndicate covering transaction”). All of the marimo REIT investment units purchased by SMBC Nikko Securities Inc. in the syndicate covering transaction shall be used to return the borrowed investment units. Furthermore, during the syndicate covering transaction period, there are cases where SMBC Nikko Securities Inc. may decide to not engage in the syndicate covering transaction at all, or end the syndicate covering transaction in a number not reaching the number of investment units of the secondary offering through over-allotment.

Moreover, there are cases where SMBC Nikko Securities Inc. may conduct a stabilizing transaction accompanying the primary offering and secondary offering through over-allotment, and all or part of the marimo REIT investment units purchased in the stabilizing transaction may be used to return the borrowed investment units.

SMBC Nikko Securities Inc. is scheduled to acquire marimo REIT investment units by accepting allotment pertaining to the third-party allotment in the number of investment units arrived at when the number of investment units purchased in the stabilizing transaction and syndicate covering transaction and used to return the borrowed investment units is deducted from the number of investment units of the secondary offering through over-allotment. For this reason, there are cases where the number of investment units to be issued in the third-party allotment may not be subscribed for, in whole or in part. As a result, the final number of investment units issued in the third-party allotment may decrease by that extent, or the issuance itself may not take place at all, due to forfeiture.

Furthermore, whether or not the secondary offering through over-allotment takes place and the number of investment units to be offered in the event that the secondary offering through over-allotment takes place shall be determined on the pricing date. In the event that the secondary offering through over-allotment does not take place, the borrowing of marimo REIT investment units by SMBC Nikko Securities Inc. from the designated party will not take place. Accordingly, SMBC Nikko Securities Inc. will not accept or subscribe for allotment pertaining to the third-party allotment. As a result, the issuance of new investment units through the third-party allotment will not take place at all, due to forfeiture. In addition, the syndicate covering transaction on Tokyo Stock Exchange, too, will not take place.
